WITC ALCOHOL & OTHER DRUG POLICY & PROCEDURES

Alcohol/Drug-Free College

It is the intent of the college to provide students, staff, and visitors with an educational environment which is alcohol and drug-free. The college health nurse at each campus serves as the ATODA (Alcohol, Tobacco, and other Drug Abuse) prevention facilitator, providing awareness, education, support, resources, and referral for staff and students. The WITC Board has approved the following policy:

The use, possession, manufacture, sale, or delivery of illegal drugs (or its facsimile) is prohibited from all WITC campuses, other WITC instructional sites, and at all WITC-sponsored activities.

The possession and/or use of any beverage containing alcohol, including beer or other malt beverages, wine, wine coolers, or distilled beverages (or its facsimile) on college property is prohibited (except as an ingredient in college-approved food preparation programs).

All students and employees are prohibited from being under the influence of alcohol or controlled substances while on college property or while conducting college business or receiving instruction.

This policy shall not apply to substances prescribed by a physician, ingredients in food preparation, or utilized as part of the Field Sobriety Testing Program.

The possession and/or use of alcohol as part of any off-campus, college-sponsored activity without prior approval by the president (or his designee) are prohibited. All college-sponsored student activities (using tax dollars and/or activity fees) must be open to all students regardless of age. If alcoholic beverages are present at off-campus, WITC-sponsored activities, provisions must be made to accommodate any student less than 21 years of age.

The consumption of alcoholic beverages is prohibited during the program/activity portion of any educational field trip or while in transit to or from the campus.

The use of alcoholic beverages in any WITC conference center is not to be encouraged and will be authorized only in rare and unusual circumstances with the prior approval of both the campus administrator and the president.

The expenditure of student activity fees for alcoholic beverages is not allowed.

The advertising of alcoholic beverages is prohibited on WITC property and in college publications.

Violations of this policy will be reported to law enforcement agencies when appropriate, as well as being the basis for disciplinary action, up to and including dismissal or termination from the college.

Tobacco-Free Policy

The state of WI, through the passage of Act 12, has enacted a statewide smoking ban that prohibits smoking in all public places. The ban went into effect on July 5, 2010. WITC recognizes its responsibility to comply with state law and provide a safe and healthy learning environment. Because of this commitment the use of tobacco in any form is prohibited in all campus facilities, near entryways, and in college vehicles. Please refer to your local campus policies and procedures regarding the use of tobacco products.

Legal Sanctions for Controlled Substances

Wisconsin - The laws of Wisconsin prohibit drug possession and delivery through the Uniform Controlled Substances Act, Wis. Stats. 961, and mandate stiff penalties that include up to 30 years of prison and fines up to \$1,000,000. A person with a first-time conviction of possession of a controlled substance can be sentenced up to 1 year in prison and fined up to \$5,000. The penalties vary according to the amount of drug confiscated, the type of drug found, the number of previous offenses by the individual, and whether the individual intended to manufacture the drug, sell the drug, or use the drug. In addition to the stringent penalties for possession or delivery, the sentences can be doubled when exacerbating factors are present, such as when a person distributes a controlled substance to a minor. Substantial restrictions against alcohol abuse also exist in Wisconsin. It is against the law to sell alcohol to anyone who has not reached the legal drinking age of 21, and there is a concurrent duty on the part of an adult to prevent the illegal consumption of alcohol on his (or her) premises, Wis. Stats. 125.07(1)(a)(1). Violation of this statute can result in a \$500 fine. It is against the law for an underage person to attempt to buy an alcoholic beverage, falsely represent his or her age, or enter licensed premises. Offenders can be fined \$500, ordered to participate in a supervised work program, and have their driver's license suspended, Wis. Stats. 125.07(4)(3). Harsher penalties exist for the retailers of alcoholic beverages including up to 90 days in jail and revocation of their retail liquor permit.

Federal - The federal government has revised the penalties against drug possession and trafficking through its Federal Sentencing Guidelines that reduce the discretion that federal judges may use in sentencing offenders of federal drug statutes. Under these guidelines, courts can sentence a person for up to 6 years for unlawful possession of a controlled substance that results in death or bodily injury. Possession of more than 5 grams of cocaine can trigger an intent-to-distribute penalty of 10-16 years in prison. U.S.S.G.s 2D2.1(b)(1).
Illegal Possession Penalties of Controlled Substances: First conviction - Up to 1 year imprisonment and fined at least \$1,000 but not more than \$100,000, or both. After 1 prior drug conviction: At least 15 days in prison, not to exceed 2 years and fined at least \$2,500 but not more than \$250,000, or both. After 2 or more prior drug convictions: At least 90 days in prison, not to exceed 3 years and fined at least \$5,000 but not more than \$250,000, or both. There are special provisions for possession of crack cocaine. Mandatory at least 5 years in prison, not to exceed 20 years and fined up to \$250,000, or both if: first conviction and the amount of crack possessed exceeds 5 grams, second crack conviction and the amount of crack possessed exceeds 3 grams, third or subsequent crack conviction and the amount of crack possessed exceeds 1 gram. In addition, there is forfeiture of personal and real property used to possess, facilitate, transport, or conceal possession of controlled substances.

legal sanctions continued:

There are also civil fines of up to \$10,000 and denial of federal benefits, such as student loans, grants, contracts, and professional and commercial licenses, up to 1 year for first offense, up to 5 years for second and subsequent offenses. 21 U.S.C. 844(a); 21 U.S.C. 853(a)(2); 881(a) (7); 21 U.S.C. 881(a)(4); 21 U.S.C. 844(a); 21 U.S.C. 853(a).

Summary of the Health Effects of Alcohol and Drug Abuse

The most widely abused and addictive drugs include: alcohol, cannabis (marijuana, hashish), stimulants (cocaine, crack, amphetamines), depressants, barbiturates, hallucinogens (LSD, PCP, mescaline), narcotics (heroin, codeine, morphine), nicotine, and various prescription medications.

The abuse of alcohol and other drugs is harmful to the health of the user. Further, the use of drugs and alcohol is not conducive to an academic atmosphere. Drugs impede the learning process and can cause disruption for other students and disturb their academic interests.

The use of alcohol or drugs in the workplace may also impede the employee's ability to perform in a safe and effective manner and may result in injuries to others.

Early diagnosis and treatment of drug and alcohol abuse is in the best interest of students, employees, and the college.

Campus Resources

Whether a student personally abuses chemicals or is affected by someone who does, alcohol, tobacco, and other drug abuse education, referral, and recovery support assistance is available at WITC. You can learn about chemical dependency using materials in the learning resource center (LRC), or by contacting a college health nurse or campus counselor. All contact with college staff is free and confidential.

For questions or concerns call WITC800-243-9482

or contact the following

WITC College Health Nurse/ATODA Prevention Specialist

Ashland – Liz VanHooser.....715-682-4591 ext. 3133

New Richmond – Diane Whipple 715-246-6561 ext. 4259
