

WITC 2012 ARTICULATION DAYS

We would like to invite all interested staff to an Articulation Day at the WITC campus near you or a campus of your choice with the best date to fit your schedules. Instructors wanting to develop new agreements are strongly encouraged to attend; if you are unable to attend one of these dates, you may still participate using the mail/e-mail process for development of agreements. Conversations around curriculum and articulation help us to better prepare students and provide a seamless transition from high school to college.
