

Transfer From WITC to Another Institution

Since the transfer and acceptance of credits is determined by each receiving college, WITC cannot guarantee that a student's WITC credits will transfer. If a WITC student would like to transfer to another college or university, they will need to contact the institution of their choice.

Transfer Opportunities

WITC has developed transfer agreements with four-year private colleges and universities in the University of Wisconsin System. Transfer agreements may contain course-to-course equivalencies, while others provide for a total program transfer. The Transfer Information System (TIS) Web site (uwsa.edu/tis/) has been developed by the University of Wisconsin System in cooperation with the Wisconsin Technical College System. The purpose of the TIS is to help students understand their options and provide information about transferring credits and programs between the two systems.

If a student is already planning to attend a four-year college or university after attending WITC, it is highly recommended that they talk to an admissions counselor or academic advisor at the four-year college of their choice. Requirements vary from institution to institution and an admissions counselor or academic advisor can help them plan their coursework to optimize their transfer of credit into a major.

Online Bachelor Degree Programs

By combining a student's associate degree credits with online courses, they can complete their bachelor's degree through unique alliances with a number of colleges and universities.

For more information, visit witic.edu.

Registration/Enrollment

Registration is the process of signing up for classes. Whether students are enrolled in a program or not, they must complete the registration process. All WITC students must be in good financial standing with the college to register. Registration procedures vary depending on the following circumstances:

If a student is new to a degree or diploma program, they must first complete the Admissions process. When they have been admitted into a program, they will be notified if they need to attend an orientation for their program. Registration information is available on the student's portal at **My WITC**.

If a student is continuing in a program, they are encouraged to meet with their advisor, at which time the advisor will help them select courses. Additional registration instructions will be on the student's portal at **My WITC** for their enrollment appointment.

If the student is continuing in a program but has not been active for a semester or longer, contact an admissions advisor to be readmitted to the program.

If a student is NOT pursuing a degree or diploma, registration times and dates will vary depending on whether they're signing up for day or evening/credit or noncredit classes. See witic.edu for more information.

Late Registration

Students can register within seven calendar days from the start date of a 16-week course if vacancies still exist. When a student registers late, they will be required to make up any work that they have missed. All fees are due at time of late registration.

Application

For an application form, see page 39 or visit us online at witic.edu under Admissions.

Summer Registration

New incoming fall students may participate in a summer registration and program orientation. They will be notified by their campus as to time and date.
