Program Overview
Nursing is the dynamic interpersonal goal-directed process that seeks to promote optimal health within the context of individuals, family, community, and society. The concept of caring, which is central to nursing, is communicated through both attitude and action. Nursing uses the nursing process, a problem-solving approach, to provide holistic care to individuals, families, and groups within the healthcare system. Through collaboration with other decision professionals, nursing is responsive to the needs of the community across the health-illness continuum.

Special Features
An agreement between the Wisconsin Technical College System (WTCS) and the University of Wisconsin System (UWS) and some other private colleges allows graduates of the WTCS Nursing - Associate Degree program to transfer, with junior standing, into their baccalaureate nursing program.

For the student that is a licensed practical nurse (LPN) and is interested in becoming a registered nurse (RN), WITC offers an "LPN Progression to ADN" track. The LPN Progression pathway provides advanced standing for nursing courses in ADN Semesters 1 and 2 of the WITC ADN program. Additionally, credits may be transferred from the practical nursing program if the General Studies courses and/or core credits were at an associate degree level. Contact the campus admissions advisor for more information.

Pre-Nursing Admission Requirements
Students in the pre-Nursing program must:
- Complete application form and submit with the fee (waiver may apply if previously submitted)
- Complete Accuplacer entrance assessment to determine placement (waiver may apply with acceptable alternative test scores and/or postsecondary degree completion); note: required Accuplacer entrance assessment scores for core Nursing coursework are higher than pre-Nursing scores
- Have earned a high school diploma or GED certificate; current high school seniors must provide documentation upon graduation
- Complete WITC pre-ADN Admissions Quiz
- Review and sign Caregiver Background Check and/or Criminal History Record Check Statement of Understanding Form
- Attend a mandatory orientation session

Program Outcomes
Employers will expect graduates of the ADN program to be able to:
- Implement a nurse’s role as a nurse in ways that reflect integrity, responsibility, ethical practices, and an evolving professional identity as a nurse committed to evidence-based practice, caring, advocacy, and quality improvement
- Demonstrate appropriate written, verbal, and nonverbal communication in a variety of clinical contexts
- Integrate social, mathematical, and physical sciences, pharmacology, and pathophysiology in clinical decision making
- Provide patient centered care by utilizing the nursing process across diverse populations and health care settings
- Minimize risk of harm to patients, members of the healthcare team, and self through safe individual performance and participation in system effectiveness
- Lead the multidisciplinary health care team to provide effective patient care throughout the lifespan
- Use information and technology to communicate, manage data, mitigate error, and support decision-making

Employability essentials and indicators will also be addressed to develop personal awareness, career effectiveness, and professionalism. See page 5 of the college catalog for a list of employability essentials and indicators.

Career Outcomes
Graduates of this program will be qualified for the following positions:
- Registered Nurse
- WITC's Nursing - Associate Degree program is accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN), formerly NLNAC, and approved by the Wisconsin State Board of Nursing. Concerns about the Nursing - Associate Degree program or questions about current status may be communicated to the Accreditation Commission for Education in Nursing, Inc. (ACEN), formerly NLNAC, located at 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, phone 404-975-3000. Concerns may also be directed to the Wisconsin State Board of Nursing, PO Box 8935, Madison, WI 53708-8935, phone (877) 617-1565.

Curriculum
Number Course Title Credits
10543101 Nursing Fundamentals ▲ ▲ * 2
10543102 Nursing Skills ▲ ▲ * 3
10543103 Nursing Pharmacology ▲ ▲ * 2
10543104 Nursing: Intro to Clinical Practice ▲ ▲ * 2
10543105 Nursing Health Alterations ▲ ▲ * 3
10543106 Nursing Health Promotion ▲ ▲ * 3
10543107 Nursing: Clinical Care Across Lifespan ▲ ▲ * 2
10543108 Nursing: Intro to Clinical Care Management ▲ ▲ * 2
10543109 Nursing: Complex Health Alterations ▲ ▲ * 3
10543110 Nursing: Mental Health and Community Concepts ▲ ▲ * 3
10543111 Nursing: Intermediate Clinical Practice ▲ ▲ * 3
10543112 Nursing: Advanced Skills ▲ ▲ * 1
10543113 Nursing: Complex Health Alterations ▲ ▲ * 3
10543114 Nursing: Management and Professional Concepts ▲ ▲ * 2
10543115 Nursing: Advanced Clinical Practice ▲ ▲ * 3
10543116 Nursing: Clinical Transition ▲ ▲ * 2

Program Requirements 70

▲ Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.
▲ See pages 41-43 for course descriptions.
▲ Course repeat and failure policies exist within the ADN program that allow for only a certain number of retakes and failures of these classes; please refer to these policies for details.

All courses in the ADN program must be completed with a grade of “C” (2.0) or better, except 10806177 General Anatomy & Physiology and 10806179 Advanced Anatomy & Physiology, which must be completed with a “B” or better.

Career Pathway Options
Career Pathways connect progressive levels of coursework to allow students to build upon their education. Each step in the pathway connects with employment options and provides the opportunity for advancement to higher levels. The Nursing -
10543101 Nursing Fundamentals - Credits: 2
This course focuses on basic nursing concepts that the beginning nurse will need to provide care to diverse patient populations across the lifespan. Current and historical issues impacting nursing will be explored within the scope of nursing practice. The nursing process will be introduced as a framework for organizing the care of patients with alterations in cognition, elimination, comfort, grief/loss, mobility, integument, and fluid/electrolyte balance. PREREQUISITE: Admission to Nursing program and COREQUISITE: 10806177 General Anatomy and Physiology.

10543102 Nursing Skills - Credits: 3
This course focuses on the development of clinical skills and physical assessment across the lifespan. Content includes mathematical calculations and conversions related to clinical skills, blood pressure assessment, aseptic technique, wound care, oxygen administration, tracheostomy care, suctioning, management of enteral tubes, basic medication administration, glucose testing, enemas, ostomy care, and catheterization. In addition the course includes techniques related to obtaining a health history and basic physical assessment skills using a body systems approach. PREREQUISITE: Admission to Nursing program or current LPN license and COREQUISITE: 10806177 General Anatomy and Physiology.

10543103 Nursing Pharmacology - Credits: 2
This course introduces the principles of pharmacology including drug classifications and their effects on the body. Emphasis is on the use of the nursing process when administering medications. PREREQUISITE: Admission to the Nursing program and COREQUISITE: 10806177 General Anatomy and Physiology.

10543104 Nursing: Intro to Clinical Practice - Credits: 2
This introductory clinical course emphasizes basic nursing skills and application of the nursing process in meeting the needs of diverse clients. Emphasis is placed on performing basic nursing skills, the development of nurse-client relationships, communication, data collection, documentation, and medication administration. COREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, and 10543103 Nursing Pharmacology.

10543105 Nursing Health Alterations - Credits: 3
This course elaborates upon the basic concepts of health and illness as presented in Nursing Fundamentals. It applies theories of nursing in the care of clients through the lifespan. This course will cover topics related to health promotion for individuals and families throughout the lifespan. We will cover nursing care of the developing family which includes reproductive issues, pregnancy, labor and delivery, postpartum, and the newborn, and the child. Recognizing the spectrum of healthy family systems we will discern patterns associated with adaptive and maladaptive behaviors applying mental health principles. An emphasis is placed on teaching and supporting healthy lifestyles choices for individuals of all ages. Nutrition, exercise, stress management, empowerment, and risk reduction practices are highlighted. Study of the family will cover dynamics, functions, discipline styles, and stages of development. PREREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, 10543103 Nursing Pharmacology, 10543104 Nursing: Intro to Clinical Practice, 10806177 General Anatomy and Physiology, and 10808918 Developmental Psychology and COREQUISITES: 10806179 Advanced Anatomy and Physiology.

10543107 Nursing: Clinical Care Across Lifespan - Credits: 2
This clinical course applies nursing concepts and therapeutic interventions to clients across the lifespan. It also provides an introduction to concepts of teaching and learning. Extending care to include the family is emphasized. PREREQUISITE: 10543106 Nursing Health Promotion.

10543108 Nursing: Intro to Clinical Care Management - Credits: 2
This introductory clinical experience applies nursing concepts and therapeutic interventions to groups of clients across the lifespan. It also provides an introduction to leadership, management, and team building. COREQUISITES: 10543107 Nursing: Clinical Care Across Lifespan, 10806179 Advanced Anatomy and Physiology, and 10801196 Oral/Interpersonal Communication.

10543109 Nursing: Complex Health Alterations 1 - Credits: 3
Complex Health Alterations 1 prepares the learner to expand knowledge and skills from previous courses in caring for clients across the lifespan with alterations in the immune, neuro-sensory, musculoskeletal, gastrointestinal, hepatobiliary, renal/urinary and the reproductive systems. The learner will also focus on management of care for clients with high-risk perinatal conditions, high-risk newborns and the ill child. Synthesis and application of previously learned concepts will be evident in the management of clients with complex alterations. PREREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, 10543112 Nursing Advanced Skills, and 10806179 Advanced Anatomy and Physiology.

10543110 Nursing: Complex Health Alterations 2, 10543114 Nursing Complex Health Alterations 2 - Credits: 3
Complex Health Alterations 2 prepares the learner to expand knowledge and skills from previous courses in caring for clients across the lifespan with alterations in the immune, neuro-sensory, musculoskeletal, gastrointestinal, hepatobiliary, renal/urinary and the reproductive systems. The learner will also focus on management of care for clients with high-risk perinatal conditions, high-risk newborns and the ill child. Synthesis and application of previously learned concepts will be evident in the management of clients with complex alterations. PREREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, 10543112 Nursing Advanced Skills, and 10806179 Advanced Anatomy and Physiology.

10543111 Nursing: Intermediate Clinical Practice - Credits: 3
This intermediate level clinical course develops the RN role when working with clients with complex health care needs. A focus of the course is developing skills needed for managing multiple clients across the lifespan and priorities. Using the nursing process, students will gain experience in adapting nursing practice to meet the needs of clients with diverse needs and backgrounds. COREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, and 10543112 Nursing Advanced Skills, 10809198 Introduction to Psychology, and 10806197 Microbiology.

10543112 Nursing Advanced Skills - Credits: 1
This course focuses on the development of advanced clinical skills. Content includes advanced IV skills, blood product administration, central line systems, basic EKG interpretation and nasogastric/feeding tube insertion. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, and 10806179 Advanced Anatomy and Physiology.

10543113 Nursing: Complex Health Alterations 3 - Credits: 3
Complex Health Alterations 3 prepares the learner to expand knowledge and skills from previous courses in caring for clients across the lifespan with alterations in the immune, neuro-sensory, musculoskeletal, gastrointestinal, hepatobiliary, renal/urinary and the reproductive systems. The learner will also focus on management of care for clients with high-risk perinatal conditions, high-risk newborns and the ill child. Synthesis and application of previously learned concepts will be evident in the management of clients with complex alterations. PREREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, 10543112 Nursing Advanced Skills, and 10806179 Advanced Anatomy and Physiology.

10543114 Nursing: Management and Professional Concepts - Credits: 2
This course covers nursing management and professional issues related to the role of the RN. Emphasis is placed on preparing for the RN practice. PREREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, and 10543112 Nursing Advanced Skills.

10543115 Nursing: Advanced Clinical Practice - Credits: 3
This advanced clinical course requires the student to integrate concepts from all previous courses in the management of groups of clients facing complex health alterations. Students will have the opportunity to further develop critical thinking skills using the nursing process in making clinical decisions. Continuity of care through interdisciplinary collaboration is emphasized. COREQUISITES: 10543113 Nursing Complex Health Alterations 2, and 10809198 Introduction to Sociology.

10543116 Nursing Clinical Transition - Credits: 2
This clinical experience integrates all knowledge learned in the previous courses in transitioning to the role of the graduate nurse. The course promotes relatively independent clinical decisions, delegation, and works collaboratively with others to achieve client and organizational outcomes. Continued professional development is fostered. PREREQUISITES: 10543113 Nursing Complex Health Alterations 2, 10543114 Nursing Management and Professional Concepts, and 10543115 Nursing Advanced Clinical Practice.
