

Alcohol and Other Drug Guidelines for Student Activities

Working together, we assist students in planning activities that are legal, provide enjoyable social interaction, and promote a positive image of WITC.

→ Banquets

If student organizations schedule a banquet at an off-campus site that has a liquor license, the group sponsoring the activity and the student club or student activities advisor will send the proprietor a letter providing information that minors may be in attendance. The letter will request that the establishment check I.D.'s when serving alcoholic beverages.

→ Educational Field Trips

Field trips are scheduled learning activities. All disciplinary procedures in existence on campus apply to field trips. Illegal drug use at any time and alcohol use during the scheduled part of the trip is prohibited and is cause for dismissal from the trip. The consumption of alcoholic beverages on educational field trips is forbidden during the scheduled part of the trip or in a school vehicle or chartered bus. Disciplinary action upon return to the campus will be taken according to district policy.
