

Re-Enrollment after Voluntary Interruption in Program

Students who have not registered for a course for three consecutive terms in an academic year will have their program record inactivated and their program status changed to undeclared (undeclared students are not eligible to receive financial aid funding).

Students ready to resume taking classes and pursue a degree in a program should contact the Student Services office to be reinstated in a program.

Students who remain undeclared are not eligible to receive financial aid.

Re-enrollment after Dismissal

Readmission: A suspended or expelled student may not enroll in the college for the duration of the suspension or expulsion. In order to be re-enrolled, the student must formally reapply to the college, submit a written request to the dean of students, and meet terms of re-enrollment specified at the time of disciplinary action.
