

SERVICES FOR YOU

Academic Services (Student Success Center)

Academic Services are available in the Student Success Centers. The following services are available:

- Assistance with course work or class projects
- Study skills: time management, note taking, test taking, and effective use of tests
- Peer tutoring
- Reading, math, and writing skills (basic through advanced)
- Computer literacy
- Job-seeking skills/workshops/employment assistance
- Program readiness
- Adult basic education and GED/HSED preparation

The Student Success Center mission is to help you reach your career goals and achieve academic success. You may enter Student Success Center courses at any time and leave when you attain your educational objectives. The Student Success Center offers courses in study skills, mathematics, social science, reading, science, career education, and English as a Second Language (ESL) at all grade levels. Classes are available day and evening at the four campuses and at other outreach centers in Northwest Wisconsin. There is no tuition fee for these courses, but certain courses may require material fees.

Both individualized and group instruction are used. GED, HSED, ESL, At-Risk, students with disabilities, and co-enrolled students use the services of this center. Resources and materials are matched to individual skill levels as students progress toward individualized goals.

Students are encouraged to meet with a Student Success Center faculty member to create a personalized success plan.
