

## Collegewide Outcomes Assessment Plan

- All Outcomes will begin with a Pilot and continue in a three-year cycle
- When fully implemented, three outcomes will be measured each year
- Information gathered will be analyzed and changes implemented in order to view progress in Student Learning related to that outcome
- Rubrics and parameters for embedded assessments will be developed by Assessment Team + faculty from areas related to each particular outcome.
- Training for rubrics + support for programs will be provided by Assessment team

- Assessment of artifacts will take place by Assessment team + faculty from areas related to outcome
- Information gathered and analyzed by the Assessment Team will be shared collegewide to discuss; develop and implement plans to improve student learning
- Programs directly involved in gathering artifacts for assessment will be asked for input and suggestions for improvement to the process
- The Team will meet annually to review and revise the process and evaluate the overall success of the plan
- Programs will be asked to continue with the embedded assessments of the collegewide outcomes, but student artifacts will only be gathered when they are on year two of program review.
