## WITC Part of Extreme Makeover Home Edition Premiere

Earlier this summer, several of WITC's fire training instructors (including Mike Spencer from New Richmond!) and the WITC fire truck were part of the Extreme Makeover Home Edition season premiere which airs the evening of Sunday, Sept 27.

The [www.WDIO.com](http://www.WDIO.com) links to the station's website, which has a link to a web page devoted to EMHE (located at the top of the page.) WITC is one of only two major sponsors – so our banner ad and web link rotate with the other sponsor. The web page will stay up for a month and you will be able to watch the show featuring the Huber family of Superior once it airs Sunday night.

## German guests meet American counterparts

Our guests from Germany arrived on the New Richmond campus Thursday, after a long flight from Frankfurt. The students and their instructors were swept into a full day of activity that included numerous introductions and class observations. Here Volodymyr Kozobovsky (far left) brings his American sociology class to the "Meet and Greet" reception with New Richmond's Mayor Dave Schnitzler in the lobby. From left are Kozobovsky, and our guests from Germany (facing camera) Turkan Kanbicak (instructor), Engin Satir, Rajib Mohammad, Max Lehmann and Hanne Hirn (instructor). When asked what the biggest surprise is so far, one guest said, "How happy and friendly everyone is!" The most disappointing so far was their delay at customs in New York and the rainy weather on Friday. From the sounds of laughter coming from the conference room, their "home away from home" base, the international exchange is going well. After all, everyone smiles and laughs in the same language.

L to R: Turkan Kanbicak (instructor), Hanne Hirn (instructor), New Richmond Mayor David Schnitzler, Rajib Mohammad, Max Lehmann and Engin Satir.

## HELP WANTED

WITC New Richmond is seeking enthusiastic people to share their talents with students of all ages. As an instructor for Continuing Education, you will have the opportunity to engage students in learning in the topic of your choice. Day, night and weekend shifts are available. Suggestions for courses include:  
Courses WITC graduates may need to update their skills  
A need in industry for something you can offer  
Personal enrichment courses

If you have an idea for a course or seminar, and are interested in working as an instructor, please complete the attached class proposal form and return to Dori Marty at [dori.marty@witc.edu](mailto:dori.marty@witc.edu) by Friday, October 2.

## Cover that cough!

Coughs and sneezes should go into your sleeve, not the wide open air. Wash hands with soap & water throughout the day. Hand sanitizer & dispensers will appear in classrooms & general office areas in the near future. Good health!
