Creating Math Equations

The Math and Science Notation Tool (WebEQ™ Equation Editor) is a general-purpose equation editor designed for working with equations. It enables instructors to use mathematical and scientific notation in Content Areas. Instructors have the ability to add equations and edit existing equations.

**Step 1:** Click on the **“Control Panel”** button (at bottom left of screen).

**Step 2:** Navigate to the content area where you want to add an equation.

**Step 3:** Click on the Item button.

**Step 4:** Click on the **“+” Icon** under the text area.

This icon will open a new window to visually create an equation.
Step 5: **Create your equation** using the icons at the top of the new window and **click Add**.

1. **Type the name of your equation.**
2. **Choose your equation size options.**
3. **Click on the categories to see the math notations.**
4. **Type the numbers in the boxes provided.**
5. **When you click **Submit**, the XML reference code will be placed in the text area. You may add more text now.**
6. **Click submit **Submit** when you are finished selecting the destination area/folder.**
