SMART Views:

Smart Views are views of the Grade Center based on a variety of student criteria. This enables Instructors to create certain views of the Grade Center—based on performance criteria for gradable items such as Assessments or Assignments—that quickly track Students. There are four different Types of Smart Views that specify the Student information:

- **Group** allows the instructors to select a Group, which was created in the course Groups are subsections created in the User Management Area of the Control Panel. They are a collection of students selected by the Instructor
- **Benchmark** allows the Instructor to select Students based on performance
- **Focus** allows the Instructor to select individual Students
- **Investigate** allows the Instructor to select from a full list of Student attributes; this is a combination of the options of the other three Smart Views.

Once built and saved, Smart Views become a selectable list item on the **Current View** drop-down menu of the Grade Center page, enabling easy navigation from one view to another. Any Smart View can be saved as the default view of the Grade Center. The current default view can be changed at any time.

Add a Group Smart View: Smart Views of Grade Center data can be based on Groups that have been created in a Course.

1. Click **Manage** in the Action Bar of the Grade Center.

2. Select **Smart Views** from the Action Link menu.
