Placement by Degree Level

Of the 1,629 graduates of 2006-2007, 79 (5%) are graduates of two-year technical programs, 242 (15%) of one-year technical programs, 386 (24%) of associate degree programs, and 922 (57%) of short-term technical programs.

Graduates employed in related jobs totaled 794, or 69% of those available for employment.

Employment in a position related to the WITC training graduates received was relatively high and ranged from 81% of two-year technical diploma, 76% of associate degree, 68% of one-year technical diploma, and 63% of short-term technical diploma graduates.

Detailed placement information by degree level is provided in Appendix D.
