Employment by Degree Level

Of the 1,445 graduates of 2013-2014, 82 (6%) are graduates of two-year technical diploma programs, 313 (21%) of one-year technical diploma programs, 414 (28%) of associate degrees, and 663 (45%) of short-term technical diploma programs. There is duplication among degree levels due to graduates earning multiple degrees.

Graduates employed in related jobs totaled 735, or 74% of those available for employment.

Employment in a position related to the WITC training graduates received was relatively high at 85% of two-year technical diploma, 77% of associate degree, 74% of one-year technical diploma, and 68% of short-term technical diploma graduates.

Detailed placement information by degree level is provided in Appendix D on page 39.
