

RESULTS

Labor Market

Three-hundred eighty-two (382) graduates are working in the labor force or available for employment. A total of 372 (97 percent) of those in the labor force are employed. Three-hundred sixty-nine (369) graduates indicated whether or not their employment was related to their training; 268 (73 percent) are employed in jobs related to their WITC training and 101 (27 percent) are employed in jobs not related to their training. (Three graduates did not indicate if their employment was related to their training.)
