WITC GENERAL STUDIES COURSE OPTIONS FOR WITC ASSOCIATE DEGREE PROGRAMS

Specific General Studies courses are scheduled as requirements for this program. If you have completed General Studies coursework at another Wisconsin technical college, please refer to the Acceptable Transfer Course document at the following link (find your program) to see if your previous coursework will transfer <http://www.witc.edu/pgmpages/genstudies/curriculum.php>. If you have completed General Studies coursework at WITC in a prior term, the same options will apply for your program requirements.

**ELECTIVE REQUIREMENTS:** To meet the elective credit requirements for this program, you will be required to take associate degree level coursework, i.e., catalog numbers beginning with a 10 (with the exception of General College courses 10831103, 10834109, 10835103, and 10838104).

*GRADUATION REQUIREMENTS: Although your academic advisor can provide guidance, you are ultimately responsible for selecting courses that meet a program's graduation requirements. If you do not take courses in the recommended sequence above, it may delay your completion of graduation requirements. A program plan GPA of 2.0 in a 4.0 grade system is required to graduate. A grade point of 2.0 or better is needed in all required courses.*

*All courses in the ADN program (core nursing, science, general studies, prerequisites, and electives) must be completed with a grade of "C" (2.0) or better except, as of Fall 2013 admission, 10806177 General Anatomy & Physiology and 10806179 Advanced Anatomy & Physiology which must be completed with a "B-" or better. New students earning a grade of C or better in these two courses may petition to enter the program, but are required to retake the class and cannot progress in the ADN Program until the required B- or better is achieved. Course repeat and failure policies exist within the ADN Program that allow for only a certain number of retakes and failures of these classes, please refer to these for details.*
