12W2 - 2nd 12 weeks

*This class requires a specific amount of time online in addition to regularly scheduled face to face classroom hours.

Online classes appear on your schedule from 7:00 to 7:30 a.m., but you are not required to log in at that time. Actual class participation is determined by you based on your schedule or as communicated by your instructor.

◆The Flex method of instruction allows the student to customize class hours within the operational hours of the lab and have an instructor present at set times to offer face-to-face help and guidance. Although there will be no large group lectures or presentations, students will be provided with a variety of learning tools. Students will work at their own pace while meeting assignment and exam due dates to ensure successful course completion. Students are not required to attend all scheduled class times; however, students are required to attend a course orientation before beginning the course.

❖This class is offered in the "Your Choice" format in which you may choose to attend class in person, complete the class online, or a combination of the two.

You can expect the following from the class:

- Class attendance is not required
- There are lectures from the instructor that will be uploaded to Blackboard for online viewing
- You will be responsible for work team collaboration throughout the course as scheduled
- Assignments are submitted online through Blackboard unless otherwise required by the instructor
- There are strict deadlines and assignment requirements
- Your instructor will support your efforts throughout your learning experience
- You determine your own level of success!

Please be advised that low enrollment class sections may be cancelled.

You will be contacted by Student Services with information on other class sections available in alternate formats.
