

Wisconsin Indianhead Technical College

10835103 Study Skills

Course Outcome Summary

Course Information

Description	This course provides learners with strategies to develop study skills for success in college. Through hands-on experiences, learners will apply study skills, learn how to think critically, and use information resources and technology.
Instructional Level	Associate Degree
Total Credits	1.00
Total Hours	16.00

Types of Instruction

Instruction Type	Credits/Hours
Classroom Presentation (Lecture/Demonstration/Discussion)	1/16

Course History

Revised By	Becky Peterson (02509223)
Last Approval Date	6/30/2014

Course Competencies

1. Apply study skills *Status Active*

Assessment Strategies

- 1.1. showing evidence of using memory, note-taking, reading, and test-taking strategies in content courses

Criteria

Your performance will be successful when:

- 1.1. you identify your learning style
- 1.2. you identify strategies that accommodate your learning style in a variety of learning situations
- 1.3. you identify memory strategies used for a specific purpose
- 1.4. you assess the effectiveness of the memory strategies used
- 1.5. you take notes that reflect key points of a class presentation
- 1.6. you outline strategies used for reading course materials

- 1.7. you outline key points from reading material
- 1.8. you assess the effectiveness of the reading strategies used
- 1.9. you identify strategies used to prepare for a test
- 1.10. you identify strategies you used to take a test
- 1.11. you assess the effectiveness of the test-taking strategies used

2. Think critically

Status Active

Assessment Strategies

- 2.1. applying problem-solving and information analysis strategies in a given context

Criteria

Your performance will be successful when:

- 2.1. you use details to discover larger ideas/abstractions
- 2.2. you examine existing ideas and develop new ones
- 2.3. you manage and interpret information in a reliable way
- 2.4. you are able to recognize the ideas you should abandon
- 2.5. you recognize reliable evidence and form sound conclusions
- 2.6. you connect ideas and facts to find new possibilities
- 2.7. you are able to think creatively about missing assumptions
- 2.8. you are able to think creatively about alternative solutions
- 2.9. you can identify the key ideas
- 2.10. you can formulate logical arguments and avoid pitfalls, i.e., logical fallacies
- 2.11. you can convincingly present your ideas to others

3. Use information resources and technology

Status Active

Assessment Strategies

- 3.1. using resources and technology to complete a project

Criteria

Your performance will be successful when:

- 3.1. you use the college library's print and electronic information resources
- 3.2. you access and search the Internet
- 3.3. you locate, critically analyze, and evaluate information and its sources
- 3.4. you distinguish between correct and incorrect information
- 3.5. you use college print materials and electronic databases to research career information
- 3.6. you apply correct bibliographic citation style and format for a written/research project
- 3.7. you discuss public policy and ethical issues affecting the access and use of information
- 3.8. you demonstrate basic computer operation
- 3.9. you use a word processing program
- 3.10. you create, open, save, and print files
- 3.11. you create a folder
- 3.12. you use your college e-mail account
- 3.13. you send and open an e-mail attachment
- 3.14. you access and use online course tools
