An average exam score of 79.5% is also required in all program courses. Scores on written assignments and projects will only be averaged into the final grade **after** an average exam score of 80% is achieved. An average exam score of 79.5% **and** a passing score on all competencies must be achieved in order to successfully pass required courses.

Failure to achieve a grade of "C" (2.0 or higher) in a course or failure to achieve the exam score as specified in the individual course syllabi will delay advancement in the program until an acceptable grade is achieved.
