

Wisconsin Indianhead Technical College
Associate Degree Nursing Program

Health and Medical Insurance

Wisconsin Indianhead Technical College (WITC) encourages students to carry their own comprehensive health and medical insurance or student accident insurance, while participating in their educational experience. While this is not a program requirement, certain clinical agencies do **require** proof of coverage for any student participating in a clinical experience at their organization. Students attending this campus/clinical site will be **required** to show proof of coverage.

Clinical partners currently **requiring** proof of insurance:

- Mayo Healthcare System (Rice Lake Campus)

Malpractice Insurance

WITC provides a blanket malpractice insurance policy for health occupation students during their programs.

Some students decide to purchase additional malpractice insurance. This is different from health insurance. There is no requirement from any clinical site for malpractice insurance. Health students can expect to pay approximately \$30 - \$50 per year for additional malpractice insurance coverage.

For more information, contact your personal insurance agent, or other sources.
